

## Our Purpose

To improve the well-being of individuals who have been impacted by cancer diagnosis.

## Our Mission

To raise funds to distribute to cancer patients, across Nebraska, who experience financial strains as a result of previous or ongoing treatment costs.

## Our History

Concrete Cares of Nebraska is a non-profit organization, established in 2013 dedicated to raising awareness and funds to help Nebraska families who are fighting the fight against cancer. Our organization consists of volunteers from across Nebraska. We have minimal overhead, thanks to generous supporters who cover many of the day-to-day operating expenses. As a result, 96% of funds go directly to individual Nebraska families. We recognize all cancer is bad, so we aspire to assist anyone receiving such a diagnosis, regardless of the type. We are gratified by our ability to have donated over \$260,000 to Nebraska families!

Concrete Cares of Nebraska  
Attn: Jereme Montgomery
